

Professor Meng-Hwa Er has had a long and distinguished history of academic and administrative service to Nanyang Technological University (NTU), Singapore in various high level positions in his 33 years of academic career with the university. He is currently Senior Advisor in the President's Office and Professor of Electrical and Electronic Engineering. His previous appointments include founding Director of Centre for Signal Processing (CSP), Dean of Electrical & Electronic Engineering, Dean of Engineering, Deputy President, Senior Associate Provost, Acting Provost and Vice President (International Affairs).

He is the first Singaporean and the first academic in Asia to be conferred the prestigious title of Honorary Fellow by the London-based Institution of Electrical Engineers (IEE) in 2005 for his outstanding contribution to engineering research, education and public service. He was awarded a Public Administration Medal (Gold) by the President of the Republic of Singapore in 2006 for his significant contribution to the growth and international standing of NTU. He was also conferred the Honorary Fellow by the ASEAN Federation of Engineering Organisations (AFEO) in 2006 in recognition of his outstanding contribution to the engineering profession in Singapore and the region. He was elected Fellow of the ASEAN Academy of Engineering and Technology in 2009 and Fellow of the Academy of Engineering, Singapore in 2012. He is the recipient of the IES/IEEE Joint Medal of Excellence Award 2015 from the Institution of Engineers, Singapore, and the Institute of Electrical and Electronics Engineers, Inc for playing a pivotal role in innovating and revolutionising scientific research and education. He is the only Singaporean among the 126 people who was honoured in a recently launched exhibition of the World's Most Influential Engineers at the headquarters of Britain's Institute of Engineering and Technology. He was conferred the prestigious Alumni Medal for Professional Excellence 2016 by the University of Newcastle, Australia in recognition of an excellence record of professional excellence in leadership, knowledge and professional practices. He was also conferred the degree of Doctor of Engineering (honoris causa) by the University of Newcastle in recognition of his illustrious list of achievements and contributions to his field.
