

XV Technologies Applied to Electronics Teaching Conference (TAE E)

Teruel, from June 29 to July 1, 2022

- Escuela Univ. Politécnica de Teruel (EUPT) - Universidad de Zaragoza

Presentation

Since 1994, the TAE E Congress has been the meeting place for professors from the areas of Electronics and Information and Communication Technologies from Spain, Portugal and Latin America.

Its objective is to improve teaching in the field of Electronics through joint reflection, the generation of didactic resources (mainly technology-based), the promotion of reuse and the cooperative generation of knowledge.

Announcement

The TAE E Association and the local committee cordially invite you to send papers for evaluation in one of the **different fields** of Electronics, within the framework of Information and Communication Technologies:

- Foundations of Electronics
- Analog Electronics, Power Electronics, Digital Electronics
- Digital Systems
- Microcontrollers and Microprocessors
- Electronic Instrumentation
- Device Technology
- Control Systems
- Signal Processing
- Telecommunications Electronics
- Communication Systems
- Electronics Applications
- Teaching Experiences
- Company Internships
- University-Company Collaboration
- Others

Official languages

Spanish, Portuguese and English

The papers presented will have **different orientations related to:**

- The different training processes (programming, teaching, learning and evaluation) both at the subject and curricular level (professional orientation, integration, flexibility, etc.).
- Linking research projects with the training of students.
- Educational policies of interest to electronics.
- Innovation based on the application of technologies.
- Analysis of training and its adaptation to the student labor market.

Presentation modalities

Oral communication, demonstration and poster.

Although the congress is face-to-face, a percentage of communications for synchronous remote presentation will also be accepted.

XV Technologies Applied to Electronics Teaching Conference (TAE E)

Teruel, from June 29 to July 1, 2022
– Escuela Univ. Politécnica de Teruel (EUPT) –
Universidad de Zaragoza

Publication

The works will be published in:

- **Abstract book** in Spanish, Portuguese or English with ISBN.
- **Proceedings book** in Spanish or Portuguese with ISBN.
- Open publication in the **digital repositories of the TAE E** Association (respecting the copyright associated with IEEEXplore).
- Authors who so choose may submit their work in English for publication in **IEEEXplore**.
- A selection of the best articles will be made to be proposed in an extended version for publication in the **IEEE Transactions on Education and IEEE-RITA journals**.

Awards

From the TAE E Association the following prizes will be awarded:

Best **oral communication** award. Best **demonstrator** award. Best **poster** award. Best **presentation** award.

Also: **Tomás Pollán** Award and **Professional Career** Award.

Important dates

- **Abstract submission:** 22/12/2021.
- **Notification of acceptance (summaries):** 01/02/2022.
- **Presentation of complete works:** 01/03/2022.
- **Acceptance notification:** 01/4/2022.
- **Sending complete works:** 22/04/2022.

Furthermore...

During the congress invited conferences, work meetings, round tables for reflection and much more will be organized.

Come and participate, sharing your experiences, learning ... and enjoying Teruel!
