About

The IEEE Global Engineering Education Conference (EDUCON) 2022 is the 13th in a series of conferences that rotate among central locations in IEEE Region 8 (Europe, Middle East, and Africa). EDUCON is the flagship conference of the IEEE Education Society.

Held every year since 2010, EDUCON provides an opportunity to scientists, professional engineers, and students to present their work, publish their results, exchange ideas and network for future scientific and industrial collaborations.

The conference will continue to serve as a catalyst for connecting local and international stakeholders hence adding value to the global dialogue on how to positively contribute to the solution of the world's engineering education.

Accepted and presented papers will be published in the conference and will be submitted to the IEEE Xplore Digital Library and appear in the Conference Proceedings Citation Index (CPCI) - an integrated index within Web of Science.

Topics

Papers in all areas of engineering education are invited with particular emphasis on the main focus of the conference and on current issues in engineering education such as:

- K-12 STEM Education Initiatives
- Student-Centered Learning Environments
- Engaging Undergraduate Students in Research
- Climate change and engineering education
- Mastering Digitalization and Artificial Intelligence
- The ethical challenge and engineering education
- Woman for leadership in Engineering
- Diversity and Inclusion in Engineering Education
- Future-oriented and personalized educational concepts in engineering
- Game-Based Learning and Gamification for Engineering Education
- Non-traditional Lab concepts in Engineering Education
- Data driven engineering education
